ABOUT THE STATE HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

Townshend is surprised at the total absence this summer of whip poor-wills, which each year have been extremely plentiful in that vicinity and this year have not been once seen or heard.

Prin. A. R. Merrill, who has had charge of the agricultural department at the Vail school of agriculture at Lyndonville since it was started five years ago, has resigned his position, the resignation to take effect at once.

This Creature Sits on Its Mouth During Its Entire Lifetime. What would you think of an animal who sat on his mouth? You would guess he didn't know very much, wouldn't you? Neither does he. You could call him the sumbest of dumb animals. In fact, he's so very dumb that most people don't know he's an animal at all. He's the sponge.

No, not the sponge you are acquainted with-not the bathroom kind. That's just his skeleton. The sponge we're talking about is the one that lives in the bottom of the sea, where he sits all day on his mouth.

In the beginning he's an egg, which splits all up in many cells and then swims around for a day or two. Then
